

Panacea is a registered non-profit organization, **dedicated to educational study and research**. All copyrights belong to their owners and are acknowledged. All the material presented on our web site(s) is either news reporting or information presented for **non-profit study and research**. All information has previously been publicly disclosed and implicitly been put into the public domain. **Fair Use applies**.

**[www.panacea-bocaf.org](http://www.panacea-bocaf.org)**  
**[www.panaceauniversity.org](http://www.panaceauniversity.org)**

We wish to express our dearest and greatest thanks to all our special friends who subscribe. We are proud to work for humanity - Welcome to YOUR Panacea-BOCAF newsletter #11 dated December 2010. Your donations and subscription to Panacea is making a critically needed difference. **We must work together to stop segregation, only collectively we can we reap OUR rewards.**

Your publicly governed, independent, evidence based and non aligned nonprofit Panacea institute is the only organization responsible for the following achievements. This report has only been made possible due to your supportive role. It is this role that is critically required for real time progress. The reason is simple and self evident for any one researching the following issues.

The world has neglected, unknown and suppressed higher education which is specifically designed to work for humanity and not subjugate them. This higher education includes regional currency ([Banking reform](#)), Permaculture, [Alternative medicine](#), Eco housing, [hemp production](#) for [Sustainable development](#) and [FREE energy EDUCATION](#). Not to mention [common law practice](#) to prevent the corporations from making money with "contractual trickery". Conflict of interests and no informed consent CONTINUES to keep the population subjected to slavery and destroys the ecology. **Now at the end of 2010 we have the highest statistics of disease and the least ecology left then ever in human history. IF YOU'RE ROLE IN PANACEA is not needed now then when?** Suppression is one word to describe the reason why your Panacea institute is in effect. The independent news media and movements did not surface because there is "no fire in the basement". Without the

truth movements like Panacea, Wiki leaks and others, we would be further trapped in bondage. Now even the truth movements FREE speech is under attack:

### [Google & You Tube Ban Alex Jones](#)

Alex Jones- Independent News Media host

As we write this, YouTube (Google owned) have since buckled and the counter claim that Alex Jones filed to combat his right to free speech has held up. Why was he attacked in the first place? Alex receives no apology or compensation. This is the system you are living in today. **WE MUST NOT CONFORM, THEY WILL TEST YOU in [common Law](#) and other areas. Panacea is the people's choice; others choose themselves over the people. It is that simple.**

Simply expressed -**It is up to us –Participation in the truth movements.** Collectively we are required to help create the educational resources for TRUTH AND FREEDOM information and ensure that there is a REAL TIME informed consent. **The world has no other institute policing the conflict of interests and ensuring informed consent on these PARTICULAR matters.** Panacea is unlike other “free energy websites” or organizations.

Panacea is **unique** in our “ideas” and work. We are activist based and additionally function as a research and educational institute. Panacea also performs field work. Our institute works with many others to unite ALL the educational community efforts on many issues. Panacea works towards creating a COMPLETE holistic self sufficient and sustainable development resource.

The principle task is to mobilize the public VIA EDUCATION; we need a public face to ensure that consensus reality look in our direction – This is so we can WAKE them up. Think of it this way, if you trap a fly in a glass jar and seal it so the fly can still breathe, the fly will still attempt to FREE itself. The fly has the nature to be free. **WE have the same nature.** Simply expressed - The difference is, the public are the fly at this time in the very same glass jar, **but this glass jar has been made INVISIBLE, by big pharma, corruption in government, big oil, the banks and other profit motives.**

**WHEN** we wake the world's population up and show them THEIR alternatives to this illusion, **only then can we make that "glass jar" visible to the public . It can be only then that their natural reaction will be mobilization and momentum to FREE one self. EDUCATION IS THE KEY. Panacea is gathering the education to do it; we just don't have the public exposure of this system and technology at this time.** Read on.

Your Panacea organization has 2 technologies to help make the public look in OUR direction for this task, these will be completed next year - **But ONLY with your aid and sponsorship**, without you, WE will be behind.

No other publicly governed nonprofit institute covers the same caliber of educational material or bonds them all together. YOUR Panacea is the world's only OPEN SOURCE online university that is intent on providing FREE educational material for sustainable development – YOUR nonprofit organization would only ever seek any remuneration to cover operating costs.

No other "university" in the world at this time teaches sustainable development with the same educational medium. The reason being is that they have no trustee's like Panacea who can POLICE the information from any cartels or conflict of interests. It is for this very reason that **Panacea is now expanding in subject matter that is outside of our current FREE energy research material.** More details on this new subject matter have are posted in the Panacea university news section below.

The world's Panacea efforts are mobilizing – The Proof is in your own nonprofit organizations new **record number** of total subscribers this year. **We wish to extend our sincere thanks to all our new and current subscribers. We are grateful for all of your NEEDED support. You are the only ones who are helping to achieve the objectives listed in this report.**

**Only at the grass roots level have we been able to achieve what no other organization has done. This is due to the regular donations from Sandeep and Rolf. We can only be effective as a team and the communities are bonding, but not without individuals giving us regular [needed donations](#) to produce real time results.**

These individuals cannot do it alone. Sadly we cannot survive on a shoe string budget. However small or slight you think your donation is, without it; we won't be able to continue to help. So please consider that the individuals mentioned have done a world of good and that donations WORK. WE are in their debt. **Thank you to Sandeep and Rolf.** Your love is forever inspiring to Panacea and keeps us going.

**[Panacea's ongoing report into Steorn's Orbo FREE energy Technology](#)**

Panacea's final E-Orbo Testing

To all our new subscribers who wish to read some background on this technology please consult the following webpage - <http://panacea-bocaf.org/steorn.htm>

Ever since Irish company Steorn publicly announced that they have produced an excess energy gain through "time variant magnetic interactions", they encountered interference which prevented any real time progress. This particular interference ([free energy suppression](#)) was due to Steorn attempting to get the mainstream academia to accept their new discovery.

**Steorn discovered what they call their "orbo" effect by accident, but it's no accident that they join the rest of the FREE energy inventors throughout history in the same line of delays.** What is fortunate for the public is that Steorn produced a proof of principle and provided public access to their information through licensing in order to progress the technology forward. **This means ALL the knowledge is now secure in the public domain (but not FREE or open source).** For free energy principles, this is a first.

Steorn's public disclosures began with a permanent magnet version of their "orbo" effect, over time this progressed to an electromagnetic version (E-orbo) to finally their solid state version. The solid state version is now the only focus of their public disclosures. Steorn are now attempting to attract developers in to help and construct FREE energy applications.

Despite their "orbo" information being open to the public, **to date there are still no working applications that have been built. You can thank the non policed CORPORATE INDOCTRINATED academia for that.** A public demonstration of Steorn's orbo effect via a working FREE ENERGY application is needed to make it "self evident" to the public not academia.

Educating the PUBLIC **first** is the only NEEDED security; WHY do **we** need to rely or care about the **current** academia? They can only ever publish the effect and are not responsible for the CAUSE.

After the public witness a functional working device, academia would then have to accept it by default. Steorn should of like other inventors (Panacea's institute is intended to help this) built something and released it to the public IN A FUNCTIONAL APPLICATION - NOT ASK ACADEMIA TO ACCEPT THEIR PRINCIPLE - **Interference will always result when one relies on the corporatized academia to validate new discoveries regarding energy. We have attempted to set this out in detail to help others -We predicted that Steorn would experience this over 2 years ago.**

<http://panacea-bocaf.org/howtheywentwrong.htm>

The current academia or "ruling class" have been suppressing new discoveries since Plato. The [Panacea institute](#) intends to correct this; if we don't learn from history then we will simply repeat it.

Your nonprofit organization went in to get this job done and as fast as possible. Before the solid state information was complete you may remember from the last Panacea newsletter that the E-orob kit was generously donated by our trustee Rolf. Panacea was given the opportunity to get to the bottom of this and help get the word out.

The Official Steorn Orbo Kit which was donated to Panacea

After participating in the E-orbo research and development with a non commercial license on the official forum for about 6 months we have to say, it was imperative that we went there to investigate.

Without our investigation the public would not know why the E-orbo device has not surfaced into a working application, or how your Panacea can help secure the technology with our unique intervention. **The official information covering the E-orbo version was generalized to a point where we had to perform "guess" work regarding**

**the EXACT configuration. This means that the E-orbo version is impractical for replication and for building into an application at this time.**

To replicate this effect requires the original parameters which Steorn presented at their water ways demonstration. Sadly the core material and other factors are not present. We had a general idea and were expected to “invent off the back of it” .

At a later date we then found out that the E-orbo version was only assembled by Steorn in order to demonstrate certain effects or their “orbo” interactions to the public. The E-orbo version was never meant to perform as a practical and functional FREE energy generator for developers. It is for this very reason why you have not seen any applications surface from any one so far using the E-orbo configuration. Without Panacea going in and doing the hard 6 months of testing you would not know this.

**To Steorn’s defense they have now stated that their focus of development is for their solid state configuration and ALL of the needed information has now been provided to get it working. This version has been specifically designed to evaluate their OU (over unity) principle.**

Their solid state version is “plug in and play” - It needs no research or “guess work” . This means that Steorn have made the first practical step into making the FREE energy principle available for the public to develop further into a home power application.

We must remind everyone that Steorn does not produce products, this is the reason why they provide the “ingredients” - It is then up to the developers to go and “bake the cake” or develop applications. So **Steorn need developers** to make the principle into a home power application.

Hopefully more will flock to their official licensed forum after they see a functional device built by Panacea. Today Steorn are offering an EVALUATION BOARD so the public can validate their FREE energy principle – **This is not a “free energy generator”** .

**Orbo Evaluation and Development Unit**

**Panacea is not bothering with this "small" version; we are going for an upgradable version of the solid state board in order to make a working application. This is to find out if Steorn's OU is practical.** Panacea's objectives are to establish the phenomena of FREE energy to the public and show the merit for a publicly governed research center to help resurrect all past suppressed free energy principles and help the new and present ones in REAL TIME.

Currently [Energy By Motion](#), [Black light power](#) and [Hidro](#) are the only known commercially available free energy devices offered to the public - However none of them have a home power generator version available. They are making big power stations available and are thus perpetuating the need for further monopolized energy cartels. If energy is FREE then it must remain free.

The Australian company [Lutec](#) is the only other known alternative FREE energy home power solution – However Lutec states that they may be 2 years away and give no guarantee for this.

Panacea will make sure that Steorn's principle is developed into a cheap self contained home power version. Panacea is able to achieve this by being licensed and present on their official forum. **It is only with this version that we then begin to develop further self sufficient educational models -From regional currency, to local food co-ops. To achieve a blue print for decentralization and an equalization of the corptocracy power that subjugate - We need to produce what the late and great Eugene Mallow said:**

***A world of abundant, clean, and safe energy from sources that have no centralized geopolitical control- Eugene Mallow***

This is the reason why Panacea has opted for the Steorn replication team board version and has not purchased the official evaluation board that is currently advertised. **Our solid state version can be developed into an application and upgraded to show the public what they need to see, a device producing real work using an over unity principle.**

Panacea Trustee Andrew soldering parts of the solid state board –End of Nov 2010

This solid state board has a few extra needed components to it; we are currently waiting for the final parts to arrive which should be here around mid December. We can't work with no budget though.

**Panacea will be soldering and testing over Christmas. Since the issue is so important, YOUR Panacea has decided to work over Christmas on this board for the public.**

Other parts of the board awaiting components for completion

As of December of 2010 not one developer has come up with a functional application from their license. Panacea will do everything in our power to be the first to complete this application and to get the word out. All the Panacea subscribers will receive the first emails announcing the good news when this application has been completed. The completed unit is expected to be completed no later than

mid next year; however our first OU measurements could be done by late January 2011.

Panacea is the only grass roots SECURE community based organization that is intent on creating a needed nonprofit [educational institute](#) with the capacity to provide independent validation and security into ALL the subject matter needed for social reform. [The proposed granted nonprofit research and development center](#) is needed to ensure that self sufficient sustainable development education is secure. Security is now needed more than ever. In a country like Nigeria where corruption is rife, what is the fate of technologies like: [Nigerian Girls build Free Energy Device](#) -

Despite many history lessons calling for REOFRM, there has never been a security concept like the PUBLIC Panacea research and development center to secure this knowledge and provide the support required for the FREE energy inventors to:

Prevent business incompetence, hold the knowledge in a public trust (preventing it from vanishing if the company fails financially) and police interference from academia to ADVANCE EDUCATION. With Panacea's public face and being in the public eye only then can we validate FREE energy technology in real time and build consumer awareness and demand.

**The Panacea Steorn video production has all the proof and merit for this educational institute to help the public. We have already completed filming the Panacea Steorn production. This production will have be published upon the completed Steorn OU tests and will additionally contain all the answers to help the FREE energy community -Including Panacea's solutions to help get the ALL the educational material out to the public in real time.** This production has also been done to support the open source free energy community's work and help Steorn.

**[Update on Panacea's clean no chemical weather engineering technology](#)**

Panacea's first completed ground unit

To all our new subscribers - For background on this technology please consult the following page: <http://panacea-bocaf.org/droughtrelief.htm> Panacea is the only organization that has been donated this technology by [Trevor Constable](#). This is the only UNEDUCATED clean method that's able to

Dissipate SMOG

Lift FOG

Break DROUGHTS

Fill RESERVOIRS

Calm WINDS

Weaken STORMS

Thanks to YOUR donations, **Panacea will make our records public which show the non compliance by the Australian government to utilize this CLEAN NON CHEMICAL CHEAP weather engineering technology –This technology can save the tax payer more money then what is currently used in its place, it is far cheaper to relieve drought in place of desalination plants and cloud seeding.** Panacea continues to collect these records; these records continue to be posted on our [drought relief page](#).

The idea is to demonstrate this technology publicly and take the knowledge to the people; it is only the public who can only police the corruption and politicians. Your nonprofit organization is the only institute which pledges to use donations to educate the world of the altruistic gentleman whom have been performing this drought relief work.

This technology has a CONTINUED line of neglect and suppression; this is the only known process that is able to create atmospheric self regulation and repair drought areas. It is essential knowledge to help advance humanity. So far it has not been easy to get it publicly known, however now we finally have a capacity to wake the world up and honor the pioneers who originally set out to educate the world with this process. The late [Wilhelm Reich](#) has been trying to advance education with this method since the 1950's. Panacea has been very active in getting these **public** demos ready, **however an accidental misfortune has struck us and some of our equipment was damaged. Sadly we are still trying to financially recover at this time.** The following is a picture of the original airborne tube which was generously donated to Panacea.

The air borne Tube to be tested by Panacea

Panacea now has a new pilot for airborne operations and plans to perform these tests as soon as we can recover. We will then help the Australian Murray River drought and gather data to validate the process to help ALL other countries. Sadly this process has currently stopped due to the unfortunate accident of our equipment. We are sad to report this to all our subscribers.

A Broken Airborne Tube

If you can help speed this along in ANY way and help other communities **please note any needed donations will make THE ONLY difference.** Panacea will be emailing out your hard work AND rewards when the world's first ever independent public demonstration is done. With your equipment back up and running Panacea now has all the scientific mediums necessary to finally educate the world of the primary energy medium. This is an energy that is that is responsible for real weather effects and can be engineered to create water security and save lives. However Panacea won't just be validating neglected drought relief technology and showing the merit for our own research and development center or institute to help other neglected technologies.

Panacea will be producing a complete **public** presentation on "Orgone energy" with scientific measurements in order to vindicate and validate the science of Orgonomy – Orgonomy extends too many more beneficial applications for humanity. We must help.

Thanks to your donations Panacea has acquired a scientific orgone measurement instrument to go with our PUBLIC weather engineering tests. This critically needed device will be able to prove and measure the life force energy – This was first discovered by Wilhelm Reich as far back as the 50's. The following is a picture of Panacea's scientific ORGONE measuring unit. This meter is able to quantify the density of the primary energy in objects and in the atmosphere.

Scientific Orgone meter- Able to measure atmospheric, plant, animal and human orgone fields.

Panacea has completed a successful operation of our ground weather engineering unit. We had to go through a lot of expensive R & D to get the most robust setting and reliable motor for its operations. To secure the public demonstration of these ground units WE are needed to construct 2 more of these "spider units". Hopefully we will recover and enough donations will come in so these units can be done in real time.

Ground spider unit

**We wish to sincerely thank Sandeep and Rolf for their consistent donations which got us ALL this far. WE have the knowledge now and can apply it to work for humanity. We are grateful to all of our supporters for being the only ones to help achieve this so far. WE are in their debt. After all the equipment is completed we will be the first community effort to finally get this technology known and help humanity.** For a brief overview of our NEW records and operation please consult our new video.

[Trevor James Constable Gentlemen Tribute](#)

**Successful fuel saving and pollution cutting modification tests**

We are proud to announce to our beloved public the release of an open source fuel saving and pollution cutting modification which has been donated by our very own special engineer [Bill Williams](#). Bill has paved the way and secured this open source information in the public domain to help relieve an economic burden and reduce pollution.

The Gas splitter Dry cell by Open source engineer Bill Williams.

This is the only known open source “gas splitting” method that has an advantage over all other “hydroxy” boosters. This hydrogen gas splitting method has already been proven to successfully overcome the onboard fuel injected computers. **Your nonprofit organization is the only one that is producing an educational video and PDF to prove these benefits.**

Your nonprofit organization has been active in using a portable emissions tester to confirm the results of fuel saving and pollution cutting modifications. Panacea will be reporting all these results in the New Year. Panacea has successful fuel saving and pollution tests on many vehicles and will include them in this new report.

Preview of the Z5 successful test

Working on no budget, Panacea continues to perform these tests with the largest range of fuel saving and pollution cutting modifications on ALL fuel types. We are committed to publicly disclose this higher education and improve public health. **Our subscribers will receive a link to the NEW up and coming video and PDF which should be not long after the release of this newsletter.** Panacea's new production and PDF contains an ESSENTIAL balance of open source and other cheap modifications to save fuel and reduce emissions. The following photo is another preview of one of our successful fuel saving and emissions reduction modifications. Panacea tested the Gadgetman Groove (suitable for petrol cars only). **Gadgetman has pledged to open source this method at a later time and for this he has our complete support.**

Example of the groove

Example of the emissions Reduction

The following is a recap of the unique work Panacea is doing regarding these fuel saving and pollution cutting modifications. Your Panacea Video production and PDF will include:

- 1) Proprietary and cheap open source modifications
- 2) Complete education on how to help get subsidies to retrofit them to save fuel and reduce pollution
- 3) Facts sheet and FREE training to help start retrofitting garages
- 4) The free school and digital training resource to train mechanics and help create retrofitting modifications

Panacea is the first to create a FREE fuel saving and pollution cutting school. This has only resulted from the spirit of the open source free energy community. The government and faculties are not teaching these methods. **It's time to remind everyone that there are [920 patents](#) since the 1920's to improve fuel economy and reduce emissions that have never made it to the end user. Where is the INFRASTRUCTURE to educate them?**

This school will also teach the public about how the current SYSTEM needs security and policing through your nonprofit organization. Panacea will SECURE this information and help get these solutions out to the public. Panacea will be providing FREE public access to all your fuel saving and emissions data for any mechanic or individual to evaluate. **Panacea will be able to train mechanics and individuals for FREE.**

The Panacea school will be held in Brisbane Australia at the state library - But international access will be provided via a digital resource please [contact us](#) for any interests.

No one else in the world has gathered all this education and is intent on teaching them; **this has been done on no budget - Only by your donations.** So it gives us great pleasure to welcome you to YOUR unique contributions in making a difference in the world.

On that note, the trustee's wish to express the warmest respect to you our special friends who are enabling us to report the good news, there is much more inside this newsletter to be proud of. **Thank you again for reading and for your subscription. The next Panacea newsletter will be due in April of 2011.** With much love and support sincerely – The Panacea' Trustee's.

## Main page news

## New Faculty of economics webpage

Panacea has produced the **only** faculty of economics page to SECURE banking reform education. This new page has the only advantage over proposed methods to create a stable monetary system. **The Panacea resource allows the public to enforce the solution through a legal mandate.**

In the United States, England, Australia, and third world countries, the power to "create credit" or "issue currency" is unnecessarily in private hands -Constitutionally it can be restored into the hands of government for the people and by the people. Only then will money manipulation, usury or the burden of interest and fees on loans not be needed. **Interest-free and fee-free loans are possible. Who is teaching you this your government?**

**The current education system is not set up to prove this particular stable pecuniary management of the public's monetary needs. Facts prove it clearly and unequivocally.**

Panacea can prove that all that is needed is for the People to know and understand that we can all have interest-free, fee-free loans for housing, business and personal use, right now, and the banks can make the same profits they make now, and still lend in a prudential manner. Panacea has also conducted a FREE public educational workshop; this is the first of its kind TO ACTIVELY ALLOW THE PUBLIC TO CHANGE THE SYSTEM.

Len a Panacea volunteer conducting the first faculty of economics workshop in Brisbane

Local and international mandates forms can be mailed from our website to help this situation. A world community effort can also make a difference, the process works, mandates are legal.

<http://panacea-bocaf.org/facultyofeconomics.htm>

### **Panacea Asia up and running!**

It is our great pleasure to report the completed Panacea Asia page. Abubaker Siddique has altruistically begun [Panacea-Asia](#) which is now operating out of Pakistan. This overseas division has begun the logistics for hemp production and sustainable development- There are other projects that would not be over in Pakistan without Panacea's intervention -Including Aquaponics (organic health and food security). Panacea is intent on getting the Steorn device over there once it has been completed. If you are in Pakistan and are interested in these goals or know of someone who would be- Please forward the [Panacea Pakistan](#) page to them.

### **Total rewrite and re organization of the Panacea website site material**

In the New Year Panacea will be heavily involved in consolidating, repairing and adding to the Panacea-BOCAF and Panacea university web pages. **New web**

pages and educational material will cover organic nutrition, food security through local food co-op methods. We will also be providing permaculture training and information.

**The only activism of its kind is present on the [Panacea Activism page](#)**

Attacking the source through public education is what we must do; we have an easy and direct way to do this. We can collect easy digital votes for a corporation charter which can make sure that the renewable energy that's sort after by Obama must include our FREE energy areas of research.

This corporation charter will prevent foreknowledge, conflict of interest, insider trading and judges with financial ties to have the ability to approve permits and police with stricter penalties. **It will also make it mandatory for the renewable FREE energy solution to be used over others, the corporation charter cuts the snake off at the head – It also makes OUR renewable sustainable education inclusive which would otherwise be neglected.**

One million signatures are possible and can contribute to attacking the source. Please help and pass this link around, it was hard work all of us collecting info – Providing your Name e-mail and country is easy at the following link – It is all it takes to help the activism that we are involved in.

<http://www.panacea-bocaf.org/forms/evidenceofconcern.php>

**New educational video productions**

The following videos will be published in the New Year - Please check our [News section](#) in 2011

Fuel saving and pollution cutting modifications

Steorn production

Dirty electricity

Alternative medicine

Permaculture

**Always Refresh the Pages on the BOCAF site**

PLEASE ALWAYS REFRESH THE PAGES (by pressing the F5 key) WHEN VISITING THE PANACEA SITE, MISTAKES ARE BEING CORRECTED AND NEW CONTENT IS BEING ADDED. Please contact us if you see any mistakes. We appreciate any help and feedback. We are understaffed at this time.

## Panacea University News

The Panacea University is pleased to announce good news for the public. **Your FREE university is now expanding in the New Year to include other categories of FREE information for sustainable development.** Our intent is to police this particular higher education which would otherwise remain suppressed due to a conflict of interest. There is no money in making people self sufficient. **There are many other areas besides free energy which we are now involved in protecting.** All these areas require Panacea's independent, none aligned and evidence based infrastructure to be secure.

These NEW categories include "Alternative medicine", Permaculture, Hemp production, RAW food organic nutrition and economics. All this combined subject matter is required to give you SELF SUFFICIENCY and sustainability. However this education is not policed, secure or even covered in any other faculty. **We are doing this on NO BUDGET. With more donations we can do more.**

Currently Alternative medicine is being suppressed; 2 Panacea volunteers have validated two different important alternative cures **which must reach the public.** Panacea has a public face and has already been on TV. **It is of the utmost importance that that we push the following cures to help others.** These include a CANCER CURE and a natural way to remove gallbladder stones. Without these disclosures the general public will continue to suffer and pay unnecessarily for surgery or even worse.

These cures come from natural remedies; however vested interests are enforcing the opposition to them. Big pharma is a multi BILLION dollar industry. Therefore the concept of having an alternative medicine research section in Panacea's proposed

granted research center is needed to help other this and other data to reach the public.

The first natural cure involves an alternative to Gallbladder Surgery for [Gallstones](#). The mainstream treatment for this condition is nothing to take lightly. Doctors continue to unnecessarily remove the Gallbladder from your body. We will open source this cure.

3D animation of the surgical procedures

We must stress that you should not attempt this procedure unless you have had the size of your gallstones measured- "Passing them out" by this method may be impossible due to the size them being too big – If this is the case you may end up in hospital. **However everyone will not have over sized gallstones and practically every one can pass these stones out before they become a problem. Early liver flushing is an imperative preventative measure.** The alternative is having your gall bladder removed. **This is completely unnecessary for those who can pass them.**

**WHY** haven't you heard about this from your local doctor or hospital? The bottom line is both big Pharma and your doctor are connected and their engineered "sickness" industry cannot make any money if there is no surgery involved. Especially if the ingredients are off the shelf and natural -No pharmaceutical company can then patent or create a monopoly on them.

A one off cure is the opposite of what the pharmaceutical companies produce; they rely on keeping you in need or dependent on their medication rather than curing you outright. There is no money in cures.

A Scene taken from Panacea's liver flush Video disclosure showing the Natural ingredients

All middle aged and elderly people are likely to have these Gallstones brewing inside them due to their non organic diet. Panacea will be producing a raw food and organic diet webpage to help this issue. There is currently no wide spread medical program to screen and identify these stones and naturally remove them - Or educate about their root causes!

**It is logical to state that middle aged people should perform this liver flush at some stage after examination to ensure that the stones don't grow and become a problem where surgery is required.**

Panacea would now like to prove the effectiveness of this natural procedure. **It is about time that Panacea unveiled one of our most respected trustee's and volunteer's "Rolf"**. You can thank both Rolf and Sandeep for most of what we can currently report. They have been very aggressive and consistent donors. Other donators have also made the only difference- Even with small donations we have been able to work for you where no other has. Here is the proof. One of our most inspiring and dearest trustee's Rolf performed the liver flush procedure recently and has independently validated the benefits. Rolf's results were successful. He is feeling much more energized and better.

Our Hero – The Panacea Trustee Rolf taking the plunge and flushing the Liver with a none surgically remedy

**It is sad for us to know that others have had to unnecessarily endure surgery to remove their gallbladder. This natural cure is cheap and needs no surgery.** We have all the proof on camera and this validation and open source procedure will be included in Panacea's new alternative medicine video production. Below is a screen shot that has been taken from the liver cleansing test; this picture shows the gallstones that your doctor would typically perform surgery to remove.

Rolf proving the power of the human body to heal itself -  
The result: no surgery and safe removal of the Gallstones.

Countries like India can have this cheap and effective NATURAL relief; Panacea has a trusted Trustee who can help spread this information in India. [India currently charges 15 to 20,000 rupees](#) to get this procedure done. **It does not take a rocket**

scientist to realize that unless we create our own NON PROFIT infrastructure such as that which Panacea proposes, this information won't be POLICED.

Now to cancer, cancer is a huge profit industry based on engineered "sickness". The [pharmaceutical](#) companies have been making a KILLING and millions from manipulation, fake diseases, advertisements and suppression of these cures.

**Panacea has been collecting alternative cancer cure material in order to construct a FREE alternative cancer cure PDF resource. More on this new PDF will be posted in the next Panacea newsletter.**

Panacea has done some validating of our own regarding cancer cures; one of our volunteers has a success story to report just like Rolf. The following cancer cure "is not known" by the mainstream medical establishment or is one that is prescribed - This is for a very good reason. Like in the case of the liver flush treatment they cannot patent the cure as it contains NATURAL ingredients. If they cannot have a monopoly on something they cannot make huge profits. Why should they tell you?

Also with this cancer cure treatment they cannot make money from surgery to "treat" the condition. If you had a skin cancer today (other cancers have been reported to be cured by the following method) and went to your local doctor chances are you would be prescribed the toxic "Aldara" cream to treat it. Doctors have financial ties to these companies, there is no law preventing this. Currently there are no laws to ensure that the FDA and doctors give you a COMPLETE informed consent about the natural remedies as an alternative. Why is that?

Scene taken from the DVD once answer to Cancer

The FDA is only legally required to tell you so much; in fact the pharmaceutical companies can pick whatever report they want to get FDA approval for their drugs. Financial ties to the FDA and big pharma companies are also allowed. They are legally able to pick any part of their drug trial and show "isolated positive effects". They can keep the majority of the side effects out of the submission. In other words they can show you an isolated test which could be one of 3000 showing positive results and could have 2999 bad side effects that are not evaluated. **The manipulation of these figures is not policed. Also trials of up to 8 weeks are enough to get approval, the long term effects are not tested before the approval.**

A very informative FREE documentary on this issue is  
[MARKETING OF MADNESS](#)

There is no corporation charter policing any conflict of interest in the FDA or the "sickness" cancer industry. **It is for this reason that Panacea will go public with the following cancer cure results and help to collect legal votes for a corporation charter to address this issue.** Most will not have heard of "black Salve". You can see a lot of testimonials on [YouTube showing how black slave CURED](#) their cancer.

Black Salve -Open source disclosure taken from the DVD

In the DVD that is available from the [Doctors are dangerous](#) website you can find case file after case file proving the effectiveness of this black salve cancer cure treatment. **All the cancer cases were cured even a case where the establishment classes as an "incurable" cancer was treated successfully.** This is good news as a lot of cancer sufferers took the pharmaceutical Aldara cream treatment and got sicker, **some even died.** Black salve must be trialed on as many cancers as possible to find out how effective it can be. The potential is immense. Panacea will open source this black salve formula; **this recipe will be included in our alternative cancer cure resource which we are compiling for the public at the moment. To any one suffering from cancer please contact us for the immediate list of ingredients or check the [Doctors are dangerous](#) website where to acquire it from your naturopath.**

Naturopath making black salve

We will remain active and do our part to prove it to the public. Marty is a Panacea volunteer and engineer who has worked on the GEET technologies. Marty contracted a skin cancer from surfing. Usually they will surgically remove it or give you cream which has its own set of complications. This one was too bad to surgically remove. Marty was told of Black salve by a friend, he then volunteered to validate it. The following photos are of his treatment from Day 3 to day 14 using black salve. As you can see black salve is quick, natural, safe and effective.

Marty's Skin Cancer -Day 3 of the Treatment

Day 5 of the Treatment

Day 14 of the Treatment

Look at that cancer FREE smile

We wish to extend a special thanks to Marty for volunteering and submitting this info to help others. We need to make a big noise about all the suppressed alternative [cancer cures](#). Panacea has provided an easy digital signature link which can be found at the bottom of our [pharmaceutical](#) page. Please help with entering in your name email and country which will work towards a corporation charter to legally prevent the current conflict of interest in the FDA. Please consider supporting Elaine Hollingsworth's [Doctors are dangerous](#) website- There is a wealth of Alternative health information there.

In the beginning the Panacea University begun with practical builds into the alternative and free energy genre. The open source FREE energy community submitted research and development which were independently built and validated by us. We continue to work on open source free energy. As mentioned before we are now expanding to create alternative medicine, permaculture and aquaculture (food security with organic nutrition) resource.

The concept of permaculture is also the spirit of Panacea

- Forever
- Endless
- Sustainable

Local home food co-ops are also planned to be taught in the university in the New Year. Aquaponics is organic and the quickest resourceful way to produce LOCAL food.

Aquaponics

Food security is important and policing it with votes for a corporation charter is needed -We have already seen a bill that has been passed in the USA that is designed to prevent local food co-ops and make corporate giant Monsanto money.

[Senate Bill S510 Makes it illegal to Grow, Share, Trade or Sell Homegrown Food](#)

Aquaponics is also important for the [Medical Marijuana issue](#). Panacea is also working to help create an educational resource into this matter.

**New Over unity Research material coming soon to the Panacea university**

1) Adams motor replication method

2) Rodin coil research

**Panacea needs you and donations!**

**WE cannot survive on a shoe string budget, if you can assist us in any way shape or form [please donate](#).**

The proceeds derived from materials offered to the non profit organization are carefully utilized toward various projects to bring about a better future for all. Please help us deliver suppressed and alternative free energy technologies to the public by making a donation.

There are many ways to render assistance towards the reaching of the goals of Panacea-BOCAF. You may, for instance, contribute any ideas or input - let us know of a new website or a replicable project or any such thing. You can also become a volunteer or even offer a donation. For those of you who are not able to use PayPal, it is possible to assist the foundation by mailing any form of assistance to the following address:

Care of Panacea-BOCAF  
150 Lytton RD East Brisbane QLD 4169  
Australia

If you are involved in or can help with any of the subject matter presented on [our projects page](#), please contact us for collaborative work. Only united can we all work effectively to stop subjugation. Also we are helping make real changes by [public activism](#). Please sign our petitions; it's as easy as name email and country.

#### A reminder for Security

**To all our new subscribers**- It is Important note that should your news letter not show up and / or the Panacea web site ever be taken down, or anything suspicious like a non response from the nonprofit organization ever occurs - Please email from the link below (save this link). Along with the following text template provided. **Please email the Panacea web site BEFORE hand to double check.**

Queensland Police Service Internet Web Site - <http://www.police.qld.gov.au>

*Hello, I am a news letter subscriber of a nonprofit organization at Panacea-bocaf.org. I am sending this email in order to inform you that the nonprofit organization which is engaged in research and development into alternative and suppressed FREE energy technology may have been targeted and or intimidated. Their news letter has not turned up and or there is no response from their web site. As a news letter subscriber this email has been sent as a precaution, I am acting as a deterrent and as a "watch dog" of their operations. Newsletter subscribers have been informed that the nonprofit organization has visited your police station to go on record detailing that they are perusing this research and further that intimidation or interference may possibly occur. Plus they have reported that previous intimidation has occurred to their registered engineers. Therefore we the news letter subscribers are advised that if anything suspicious arises, for the news letter subscriber to send you this concerned email. Please look into the situation immediately. Regards...*

**[Send the Email to this link below - Save this link!](http://www.police.qld.gov.au/Forms/contact.asp)**

**<http://www.police.qld.gov.au/Forms/contact.asp>**

We are happy to report that no suspicious behavior has happened to your nonprofit organization or to any of our open source engineers despite us being involved in this genre of research that threatens the "status quo". The Panacea's trustees would like to personally congratulate you for playing a continued successful security role with your news letter subscription. **Thank you for your critically needed support!** – We look forward to reporting to you in the next newsletter **which is due in APRIL 2011.**

**Please check our [news section](#) on the Panacea-BOCAF site for new video productions coming soon.** The nonprofit organization's volunteers are proud to work for the public and look forward to reporting our public service to you soon! **Thank you again for your subscription.**

Sincerely,

The trustee's of Panacea-BOCAF.
